

I thought I would give you an update on the dog we adopted in June. To refresh your memory...we adopted sweet, adorable Cherry (small, black, part Pomeranian). My daughter simply adores her! They are such great friends. And everyone who has met her has fallen in love with her. I frequently hear the comment, "I want to find a dog just like her." She never barks, she is thrilled to see us when we come home and when we take her out of her crate in the morning.

Also, she is a star! My daughter is in the play the Wizard of Oz and has been practicing all summer. They were using the Director's dog as Toto, but the dog was having anxiety problems. I brought Cherry with me one day to pick up my daughter and all the kids (and some adults) in the play surrounded us. The next day the Director asked me if we could use Cherry as Toto. I told them I didn't know how she would do, but we could try it. She LOVES it! She loves the attention and the interaction with all the people. She's tired by the end of practice/show, but she still has plenty of kisses for us on the way home.

The play runs two weekends...last weekend being the first. I made sure to get Cherry from "Dorothy" after the play so people would know she is mine. Everyone came up to me and commented what a great dog she is. The show ends this weekend and I am not sure how Cherry will adjust to not having so much attention.

I also make sure to tell people that I got Cherry through CARE and what a great program it is.

Thanks for hooking us up with such a great dog. She is a wonderful addition to our family.
