

Dear CARE,

About 1 1/2 years ago we adopted Copper from CARE. Since then he has brought alot of joy to our family and he still does!

Just wanted to keep you up to date about Copper. Because of his horrible experience with other dogs (he was used as bait for dog fighting!) he's still afraid of dogs and sometimes he can be unfriendly toward other dogs. But, he is very very friendly with people, especially with children.

He's such a happy and passionate dog. My husband and I always tell people that Copper is our "other son" and our son, Alex, calls Copper his "little brother". We are very happy and feel very lucky that Copper is part of the family.

Enclosed is the picture which was taken at school on the Animal blessing Day.

Best Wishes from Coppers Whole Family!

Copper with his "Big Brother"
