

Dear Leeann,

We've had Jazz in our family for 2 weeks now, it has been GREAT! He is the most wonderful dog ever. We have not experienced any bad stuff at all! No backyard trench digging, no chewing up stuff, barking is minimal-he's a happy guy. Jazz minds well and is so great with all the kids, even with our 4-year old daughter. She actually gives him easy commands ("sit Jazz") and he listens! My husband, Chris has warmed up to him and is active in his training.

We all LOVE Jazz so much.

So far, we have kept him in a good routine. His lifestyle consists of morning walks and or morning backyard fetch, then breakfast. During the day he's in the backyard and not home alone for long periods as we all have flexible day schedules. Nite time is jogging and or backyard play, then dinner. Jazz loves his grooming time, we've been brushing him regularly. Jazz is aloud to come inside the house with us to hang out. He sleeps in the kennel safely in the family room. He's an early bird, loves to wake up at 530am! Oh, no house potty accidents either.

Over the long weekend we took him on a family campout to Lake San Antonio and he had a blast! I took him on several long walks, he went swimming and played with another dog. Got lots of attention as there were 10+ kids and everyone at the campgrounds commented on my "beautiful/handsome" dog.

He behaves very well on the tie-down. I've got a 30ft cable for him in the frontyard. He spent time with us as we washed the camp gear and cars. Jazz also got a wash!

Jazz (and me!) had his first vet appointment last week for heartworm test and first Lyme vaccine. The vet said he's a little under weight, but it's okay-he's still adjusting to his new home. We go back for second Lyme shot in 10 days, he'll recheck the weight again. Vet said Jazz is healthy!

Leeann, all in all he is just the best. I cannot believe what this dog has brought to our family and especially to me. We have really bonded, Jazz and I are pals for life.

I'll always keep in touch and hope to see you in the neighborhood! Again, thanks for letting us have Jazz to be part of our family!

Sincerely,
Cheryl
